

# Babayev Nizami

I&C Specialist

## PROFILE

I am currently working at "Glensol" as a Field Service Engineer specializing in RB 211 and RB 211 DLE gas turbines.

With extensive experience in Instrumentation and Control (I&C), I bring a solid background in Information Technology and Systems, which I have applied to build expertise in industrial automation, control, and process management systems.

My practical experience, combined with technical proficiency, reliability, and a focus on innovation, allows me to deliver effective and efficient solutions in challenging industrial environments.

## EXPERIENCE

2024- Present

GLENSOL (Global Energy Solutions)

### FIELD SERVICE ENGINEER I&C

Responsible for diagnosing and resolving all issues related to the turbines.

Ensure proper operation of instrumentation and control systems.

Monitor turbine performance and perform maintenance and support tasks.

Make quick and accurate decisions for troubleshooting and collaborate effectively with the team

2023- 2024

SOCAR DOWNSTREAM

### INSTRUMENTATION TECHNICIAN

Loop check, calibration, installation inspection

Transmitter, on/off valve and control valve maintenance

Punch close activity, loop folder check

Loop check from field with PLC

Maintenance and calibration all field devices

2021-2023

### ENGINEER

To give permit to work for daily jobs.

Control daily works.

Responsible for the stable operation of the power plant.

T3000 DCS administration.

2018-2021

Azərenerji, Sumgait Power Plant

### SPPA T3000 AND SYSTEM ADMINISTRATION

Maintenance, repair and calibration of Instrumentation & Control equipment.

Installing, managing and maintaining equipment.

Monitor and control engineering systems, machinery and processes.

T3000 DCS administration.

Windows Server 2012 and Exchange Mail Server Administration

2017-2018

Azərenerji, Sumgait Power Plant

### IT SPECIALIST

To fix daily problems as printing, software or hardware errors, internet connection.

To install and configure new switch, router devices.

Server Administration.
